INTERNSHIP

ThisUX - UI/UX Designing	2023
Aspiring UI/UX Designer with hands-on experience in creating intuitive interfaces for scalable websites. Proficient in Figma and responsive design. Skilled in wireframing, prototyping, user research, and usability testing. Strong collaborator with a focus on enhancing user satisfaction and website performance.	
Better Tomorrow – MERN	2023
Successfully completed a 15-day internship focused on the MERN stack at the Better Tomorrow. Gained valuable knowledge and hands-on experience in full-stack development. Developed a website of Expense Tracker by using React for the front-end, Node JS and Express JS for the back-end and Mongo DB for the database and won the best individual performer award upon the project completion.	

PROJECTS

Dish Craft -AI Recipe Generator:

Designed a user-friendly and intuitive UI for an AI-based recipe generator app featuring a scan and cook function. Ensured a seamless and engaging user experience with a focus on responsiveness and scalability.

Tools Used: Figma | Excalidraw | Pinterest

Instagram Mini Games:

Designed an engaging UI for Instagram's mini-games feature to increase screen time and reduce boredom, with interactive gameplay and seamless integration. Prioritized responsiveness and scalability, incorporating user feedback to enhance the gaming experience.

Tools Used: Figma | Excalidraw | Pinterest

College ERP Management System:

Designed a user-friendly and intuitive UI for a college ERP management system with individual portals for students, faculty, staff, and alumni. Ensured a seamless and engaging user experience with a focus on responsiveness and scalability.

Tools Used: Figma | Excalidraw | Pinterest
